

PETROLEUM PRODUCTS

EAST AFRICA SUPPLY BROCHURE

Somalia | Kenya | Tanzania | Uganda | Rwanda | Ethiopia Corridors

East Africa Focus

Reliable petroleum sourcing for fast-moving East African markets

Aurelian Capital supports buyers, distributors, contractors and institutional clients with structured procurement of petroleum products into key East African corridors. Our focus is practical: credible supply, clear documentation, workable logistics and commercially realistic procedures.

Ports & Corridors

Mombasa, Dar es Salaam, Tanga, Mogadishu, Kismayo, Berbera, Djibouti and inland transit routes.

Buyer Segments

OMCs, industrial users, road contractors, transport operators, mining, power and public sector projects.

Supply Forms

Bulk cargo, coastal vessel, ISO tank, road tanker, drums, flexitank and packed lubricants.

- Tailored for regional specifications, import rules and product availability.
- Quality documents and third-party inspection can be aligned to each transaction.
- Commercial terms are structured case-by-case to match buyer credit, volume and delivery point.

Core Petroleum Range

Products supplied across East Africa

Aurelian Capital can coordinate supply across the following product families depending on market, specification and transaction structure.

EN590 / Automotive Gasoil

Ultra-low sulphur transport diesel for road fuels, fleets and tenders.

Industrial Diesel / Gasoil

Reliable diesel supply for generators, mining, industry and off-grid use.

Gasoline / PMS

Retail gasoline supply for distribution networks and regional wholesale channels.

Fuel Oil / Marine Fuels

Industrial and marine energy fuels for power, boilers, marine and heavy industry.

LPG

Liquefied petroleum gas for importers, distributors and downstream demand.

Bitumen

Road construction, maintenance and infrastructure grades.

Lubricants & Greases

Automotive, industrial and fleet lubricant range including coolants and greases.

Automotive Gasoil

EN590 10 ppm diesel

Premium ultra-low sulphur diesel for transport, retail, logistics and regulated tender supply. Suitable for modern diesel engines where EN590 quality is required.

Indicative Parameter	Typical Requirement
Sulphur	Max 10 mg/kg
Cetane Number	Min 51
Density at 15°C	820 - 845 kg/m ³
Flash Point	Min 55°C
Appearance	Clear and bright
Documentation	COA, SGS/Intertek equivalent, cargo documents as agreed

- Common demand: retail networks, fleet operators, logistics firms, industrial users and tenders.
- Delivery options: bulk vessel, truck transfer, bonded tank, or destination terminal depending on market.

Industrial & Project Fuel

Diesel for generators, industry and remote operations

Where generation, construction, mining, agriculture and off-grid projects require dependable diesel, Aurelian Capital can support structured fuel supply into regional corridors.

Use Cases

Generators, mining, heavy equipment, remote sites, industrial plants and project operations.

Specification Considerations

Sulphur, flash point, density and handling profile can be aligned to the destination market or project tender.

Controls

Quality confirmation, inspection, terminal or loading documents, and agreed quantity procedures.

Supply Format

Bulk cargo

Coastal import parcels and high-volume buyers

Road tanker

Inland delivery from terminal or depot

Drum / packed

Remote or controlled site supply where required

Each program is structured case-by-case based on buyer volume, route, storage capability and specification requirement.

Regional Retail & Energy Supply

Gasoline and LPG for downstream markets

Aurelian Capital can support selected downstream fuel and LPG supply programs depending on market need, infrastructure and delivery route.

Gasoline / PMS

Typical Grades

RON 91 / RON 95
depending on destination market

Market Use

Retail station networks, wholesale distribution and regional demand

Documentation

COA, cargo or tank documents, and commercial terms as agreed

LPG

Product

Commercial LPG / propane-butane mix as agreed

Use

Household, commercial and industrial demand

Delivery

Bulk import, terminal delivery, ISO tank or downstream cylinder supply through local distributors

Commercial Note

Programs are structured around demand profile, terminal access and inland logistics

Road Construction & Fleet Support

Bitumen for infrastructure and lubricants for fleet performance

Bitumen

Product Family	Common Grades / Uses
Penetration Grade	40/50, 60/70, 80/100, 120/150 - paving and road works
Viscosity Grade	VG10, VG20, VG30, VG40 - heavy traffic and climate-based selection
Emulsion Bitumen	K1-60, K1-70, CRS1, CSS1 - tack coats, prime coats and surface treatments
Cutback Bitumen	MC30, MC70, RC grades - low-infrastructure or controlled curing applications
Packaging	150 kg / 180 kg drums, jumbo bags, bulk/bitutainer where available

Lubricants

Product Category	Indicative Range
Passenger Car Motor Oil	Fully synthetic, synthetic blend, semi-synthetic and mineral oils
Heavy Duty Diesel Oil	API CI-4+, CI-4, CH-4, CF-4 classes depending on engine requirement
Gear & Transmission	API GL-5 gear oils and ATF / transmission fluids
Motorcycle Oils	4T and 2T oils for high-volume retail channels
Coolants & Greases	Extended life coolants, conventional antifreeze and calcium grease

Transaction Control

Flexible delivery, clear documentation and disciplined execution

Delivery Structures

FOB / Ex-Tank

Terminal lifting, ex-depot or FOB cargo supply where appropriate

CFR / CIF

Coastal import supply into destination ports and terminals

DAP / Inland Delivery

Selected inland delivery by road tanker or approved transport route

Quality & Documentation

- Sales offer / FCO setting out product, quantity, price basis and delivery point
- SPA or supply contract with agreed procedures, payment instrument and inspection requirements
- Certificate of quality or refinery/supplier documentation with commercial shipping or loading set where applicable
- Final reconciliation and completion documents as required by the transaction

Why Aurelian Capital

- East Africa-focused petroleum and commodity trading platform
- Experience handling structured offers, FCOs, SPAs, LC-based trades and supplier due diligence
- Ability to engage multiple product classes under one commercial umbrella
- Practical understanding of port corridors, inland distribution and buyer documentation needs
- Professional documentation and case-by-case commercial structuring
